Customer Journey Ma

Automating Employee Data

User Journey Map • Automating Data Import & Relationship Mapping using Import Sets & D'Wallking

AJ Admin
- ServiceNow
- Developer
- Incident Manager

Your organization wants to automate the regular import of new employees with their details, such as Name, Email, Department, and Manager, from an external system. Once imported, when an incident is assigned to an employee, the ticket should automatically show the manager's name of the employee's department.

Entice (Awarenes / Need Recogition)	Enter (Setup & Preparation)	Enter (Setup & Preparation)	Engage (Data Import & Transformation)	Exit (Completion of Task)	Extend (Post-Usage / Scaling)
Steps • Organization identifies • need for automation • IT admin notices inefficiency	**Steps** • Create employee data file • Export as CSV/XLSX • Review & map columns • ServiceNow Import Sets	**Steps** • Create employee data file • Export as CSV/XLSX • Review & adjust columns • Use ServiceNow Import Sets	**Steps** • Create Transform Map • Defore ritiationship mapping • Run Transform Map (Mespring Assist) • Dot Walking	**Steps** • Create/Assign incident • Ticket itaaged for employee • Scale system • ServiceNow Stallied	**Steps** • Schedule recurring imports • Monitor data quality • Scale systean tor perfomance • Integrate further (HR APS)
Interactions • Internal discussions • ServiceNow demos • Reports showing data issues	**Interactions** • Google Sheets • Excel • ServiceNow Import Sets	**Interactions** • Google Sheets / API • Excel • ServiceNow Upload Data	**Interactions** • ServiceNow, Set Table • Transform Map UI / Mapping Assist • Dot Walking	**Goals** • Incident Form • ServiceNow UI	**Interactions** • Scheduled Joles • Logs / Monitoring
Goals • Reduce manual work • Improve accuracy	**Goals** • Prepare clear dataset • Simplify import process	**Goals** • Refine & clean dataset • Start Import setup	**Goals** • Automate data integration execution • Records appear	**Goals** • Reduce manual dffon • Feater ticket assignment	**Goals** • Near pero manual effort • Scalable system
Positive Moments • Clear problem statement, • Opportunity for automaten	**Positive Moments** • Prepared data source • Texted initial import	**Positive Moments** • Successful transformaction • Records appear	**Positive Moments** • Automated update • Employee data in ServiceNow	**Positive Moments** • Auto-populated manager name • Manager under employed user	**Positive Moments** • Missing data it mapping failed • seived automatically system
